# Body Treatments

PRICE LIST

## Dermalux MD Light Therapy

Dermalux MD Light Therapy is a non-invasive skincare treatment using LED light to boost collagen, reduce inflammation, and rejuvenate the skin. It's painless, and provides a radiant complexion with no downtime.

 PROCEDURE	 RECOVERY	 RESULTS
<b>30 minutes</b>	<b>Immediately</b>	<b>Instant</b>

## Fat Cavitation

Fat cavitation, a non-invasive ultrasound treatment, breaks down stubborn fat cells as a painless alternative to liposuction. Visible results emerge after a few sessions, sculpting and toning the abdomen or thighs.

 PROCEDURE	 RECOVERY	 RESULTS
<b>1 hour</b>	<b>24 hours</b>	<b>Immediately</b>

## Fat Freezing

Fat freezing, or cryolipolysis, is a non-invasive treatment that eliminates stubborn fat through controlled cooling with no needles or downtime. It's effective for sculpting areas like the abdomen and thighs, love handles.

 PROCEDURE	 RECOVERY	 RESULTS
<b>Up to 2 hours</b>	<b>Immediately</b>	<b>2-6 months</b>

## Genie Slimming and Toning

Genie Slimming and Toning is a non-invasive technology using muscle stimulation for quick body contouring with no downtime. It's a convenient solution for a sculpted physique.

 PROCEDURE	 RECOVERY	 RESULTS
<b>45 minutes</b>	<b>Immediately</b>	<b>4+ sessions</b>

## Dermalux

Per session	<b>£50</b>
Course of 3	<b>£135</b>
Course of 6	<b>£260</b>

## Cavitation

Single	<b>£75</b>
4 sessions	<b>£260</b>
8 sessions	<b>£500</b>

## Cryolipolysis

1 area	<b>£150</b>	4 areas	<b>£450</b>
2 areas	<b>£250</b>	8 areas	<b>£750</b>
3 areas	<b>£350</b>	14 areas	<b>£1000</b>

## Body Slimming and Toning

Single	<b>£40</b>
Course of 10	<b>£350</b>

## Ultra Body Tone

Ultra Body Tone treatment is a non-invasive solution for efficient muscle toning, using high-intensity focused electromagnetic technology. Quick and effective, it's ideal for convenient muscle sculpting.

 PROCEDURE	 RECOVERY	 RESULTS
<b>30 minutes</b>	<b>Immediately</b>	<b>4+ sessions</b>

## Laser Hair Removal

Laser Hair Removal is a non-invasive, virtually painless treatment that uses concentrated light for long-lasting removal of unwanted hair, providing smooth and hair-free skin.

 PROCEDURE	 RECOVERY	 RESULTS
<b>Up to 1 hour</b>	<b>Immediately</b>	<b>2 weeks</b>

## Laser Tattoo Removal

Laser tattoo removal uses focused light to gradually fade tattoos over multiple sessions, allowing for the removal or revision of unwanted ink with minimal damage to the surrounding skin.

 PROCEDURE	 RECOVERY	 RESULTS
<b>30 minutes</b>	<b>1 week</b>	<b>After 3 sessions</b>

## Mole/Skin Tag Removal

CryoPen treatment is a fast, non-invasive method that uses controlled freezing to remove skin imperfections like warts and skin tags. It offers a precise solution with minimal pain and downtime.

 PROCEDURE	 RECOVERY	 RESULTS
<b>15 - 30 minutes</b>	<b>2 weeks</b>	<b>2 weeks</b>
