An introduction to IPL

Reveal smoother, brighter, more confident skin

What is IPL?

Intense Pulsed Light (IPL) is a gentle, non-invasive treatment that uses light energy to target unwanted hair, pigmentation, redness, and signs of ageing. It's safe, effective, and suitable for a wide range of skin concerns.

Is IPL right for me?

IPL is suitable for many skin types and concerns. To ensure best results a consultation prior to treatment is always required.

IPL Skin Rejuvenation

Restore your natural radiance with targeted light therapy.

- ✦ Stimulates collagen production for firmer, younger-looking skin
- ✦ Minimises fine lines & pores
- ✦ Creates an overall glow and refreshed complexion
- ✦ Reduces sun damage, freckles & age spots
- ✦ Improves skin tone and clarity
- ✦ Treats redness, thread veins & rosacea
- ✦ Ideal for face, neck, chest, hands & shoulders

How many sessions do I need?

Most clients need 3-6 sessions for optimal skin rejuvenation results, depending on skin type and concern.

IPL Hair Removal

Say goodbye to shaving, waxing & ingrown hairs.

- ✦ Long-term hair reduction
- ✦ Smooth, stubble-free skin
- ✦ Reduces ingrown hairs & irritation
- ✦ Quick, comfortable sessions
- ✦ Suitable for most body areas

Before treatment

- A consultation and patch test
- Avoid sunbeds/self-tan for 4 weeks
- Shave the area 24 hours before your session

During treatment

- A warm, light-based sensation
- Sessions typically last 10-45 minutes
- Some discomfort

After treatment

- SPF protection
- Avoid heat treatments for 24-48 hours
- Mild redness is normal and settles quickly

How many sessions do I need?

Most clients need 6-8 sessions for optimal hair removal results.

Fractional Laser Skin Resurfacing

Renew, restore & reveal your best skin.

What is Fractional Laser?

Fractional Laser is an advanced skin-resurfacing treatment that uses microscopic laser beams to create controlled micro-injuries in the skin. This stimulates natural collagen production and encourages the skin to regenerate, resulting in smoother, firmer, more youthful-looking skin.

Starting from **£75**

What can Fractional Laser treat?

Fractional Laser technology is highly versatile and effective for a wide range of skin concerns:

- ✧ Fine lines & wrinkles
- ✧ Acne scarring
- ✧ Enlarged pores
- ✧ Pigmentation & sun damage
- ✧ Rough or uneven skin texture
- ✧ Skin laxity

Laser Tattoo Removal

Safe, precise, and effective ink fading.

What is Laser Tattoo Removal?

We use Nd:YAG laser technology, the gold standard for safe and effective tattoo removal. The laser breaks ink particles into tiny fragments, which your body naturally clears, gradually fading the tattoo.

How many sessions will I need?

The number of sessions varies depending on ink depth, age, and colour, but most clients need 5-6 treatments, with visible improvement after just 1-2 sessions. Treatments are typically spaced 4-6 weeks apart.

Microblading Removal

We also offer laser microblading removal. This precise and reliable method effectively targets cosmetic ink, especially in the brow area. Multiple sessions may be required for full removal.

Starting from **£50**
